*Cereb. Cortex* (2018); 1–13. <https://doi.org/10.1093/cercor/bhy012>

Two authors were not included in the authorship list though they both had relevant contributions to the study performance and results.

Dr. Metsäranta is a neonatologist who was crucial in the patient recruitment and much of the clinical data collection.

Dr. Lano is a pediatric neurologist who was crucial in the neurological outcome studies.

The author names, affiliations, and contributions have been corrected in the article.
